

GREEN CARE: FROM ACADEMIC THEORY TO ENTREPRENEURIAL PRACTICE

AN UNIVERSITY-BUSINESS ONLINE COURSE

In a world that is increasingly urbanized and threatened by the climate crisis, people are stressed and disconnected from nature. To tackle this Green Care can be implemented, where green spaces are used to actively promote health, prevent disease, and increase opportunities for social inclusion.

INTERESTED IN GROWING YOUR OWN BUSINESS IDEA IN GREEN CARE?

Our team designed a high-quality online course in entrepreneurship and innovation for students and professionals in the field of Green Care. The course will run from the 4th of October, 2021 until the end of January, 2022 so find out more and subscribe now!

WHY APPLY?

- 3 UNIVERSITIES
- 20+ INTERNATIONAL CASE STUDIES
- 25+ WEBINARS AND VIDEOS
- 150 HOURS OF LEARNING

This is made up by:

48 h of lectures and exercises (individual and in group), 102 h of individual study

Green4C course offers you the unique experience to get in touch with some of Europe's leading experts in forestry, social farming, urban green, entrepreneurship and with professionals working in the field every day. **The course is held in English**, and it includes scientific theory, exercises, discussion forums, group work, talk with experts and much more. Assignments and activities designed to stimulate learners with their entrepreneurial initiatives are central in this course.

The lessons are asynchronous and can be followed when you see fit. Some activities, such as questions and answers with the experts, can be followed synchronously. **A weekly commitment of about 5-10 hours is expected.**

WHEN

The first edition of our e-learning course will run from the **4th of October, 2021** until the end of January, 2022 on our Moodle-based Virtual Learning Environments (VLEs).

WHO

The course is coordinated by the University of Padua and Elevate Health in collaboration with all Green4C partners. Participants will benefit from the knowledge of some of the most prominent professors, researchers, and professionals in the field.
