

## Day 22

- 09.00 h.** **Presentation and opening of the course**
- 09.30 h.** Soil Policy in the European Union.  
**Luca Montanarella.**  
*European Commission, JRC*
- 10.30 h.** **Break**
- 11.00 h.** Land degradation neutrality: a tool for integrating and accelerating the 2030 Agenda for Sustainable Development.  
**Barron J. Orr.**  
*Lead Scientist of UNCCD*
- 12.00 h.** Land Use Policy in Brazil: The responsible use of natural resources on sustainable Agriculture.  
**Teresa Cristina Tarlé Pissarra.**  
*UNESP/FCAV, Land Use Policy Research Group*
- 13.00 h.** Soil conservation in Austria.  
**Peter Strauss.**  
*Federal Agency for Water Management*
- 14.00 h.** **Break**
- 15:30 h.** Las políticas de conservación de suelo en Andalucía desde la perspectiva de la producción agrícola y ganadera.  
**Armando Martínez Vilela.**  
*Agricultura, Pesca y Desarrollo Rural de la Junta de Andalucía*
- 16.30 h.** Medidas aplicadas en la región de Murcia relacionadas con la conservación de suelo Agrarios.  
**Miguel Ángel Fernández Carrillo.**  
*Consejería de Agua, Agricultura, Ganadería, Pesca y Medio Ambiente de Murcia*

## 23 Day

- 09.00 h.** Policies for sustainable soil use in China.  
**Guangju Zhao.**  
*Institute of Soil and Water Conservation, Northwest A&F University*
- 10.00 h.** Agricultural Policies and Soil Conservation: What has worked and what does the future hold?  
**Richard Cruse.**  
*Iowa State University*
- 11.00 h.** **Break**
- 11.30 h.** La política de protección y mejora del suelo en medio rural desde la una perspectiva nacional.  
**Susana Bautista.**  
*Misión de Salud de Suelos y Alimentación, Programa Horizonte Europa*
- 12.30 h.** Una visión cuantitativa a la efectividad de diferentes técnicas de protección del suelo en agricultura de conservación.  
**Carlos Cantero Martínez.**  
*Universidad de Lleida*
- 13.30 h.** **Conclusions and closure of the course**

This course offers an overview of the different approaches for the implementation of policies for the sustainable use of soil in rural areas in different countries, with the fundamental objective of updating knowledge on a topic that is normally left uncovered in many curricula and is key for the success of technical and regulatory efforts aimed at sustainable soil use in agroforestry systems in Spain.

The face to face format of the course, with simultaneous translation between English and Spanish, is aimed to made it also a meeting point for all those interested in the subject of the course, such as, for example, technicians from public administrations and companies, postgraduate students and researchers who work on aspects related to soil management in agricultural and forest areas. Simultaneous translation allows interested students and experts who are not fluent in Spanish but are fluent in English to participate.

In the course organization have participated the SOILBIO platform of CSIC, the companies Tecnología y Servicios Agrarios, S.A., S.M.E., M.P. (TRAGSATEC), IDEAGRO and the European projects of the Horizon 2020 program *Transforming Unsustainable management of soils in key agricultural systems in EU and China. Developing an integrated platform of alternatives to reverse soil degradation (TUdi, GA101000224) and Soil Hydrology research platform underpinning innovation to manage water scarcity in European and Chinese cropping systems (SHui, GA 773903).*

**Place:**

Casa de las Ciencias  
Avda. de María Luisa s/n  
Sevilla

**Information for registration:**

UIMP  
Patio de Banderas 9  
41004 Sevilla  
Tfno: 954-228731 954-212396

**Course fee 1 .....115 €.**

\*Students who prove that they are enrolled in studies leading to obtaining a Bachelor's or Doctor's degree at a Spanish university, will have a **20% discount on the registration fee.**

**Academic record opening fee ..... 20 €.**

This fee will be applied to students at the time of registration.
